About Me

Hey there! 🙌 I'm your friendly neighborhood graphic designer turned AI wizard-in-training! 🎨🤖

With 4+ years crafting visual magic as a freelance graphic designer, I've mastered the Adobe Creative Suite - Premiere Pro, Photoshop, After Effects, Lightroom and even ventured into the exciting world of 3D with Blender. But wait, there's more! 🌟

Currently leveling up my skills with a Bachelor's in Artificial Intelligence & Data Science at Aalim Muhammed Salegh College of Engineering, I'm on a mission to blend creativity with cutting-edge AI. Imagine designs that don't just look stunning - they think, adapt, and tell stories powered by data! 📊🌟

When I'm not busy training algorithms or designing pixels to perfection, you'll find me vlogging, creating content, and storytelling, helping brands and individuals share their vision in the most engaging ways possible. 🎥📖

Let's connect and explore how we can use design + AI to create something truly extraordinary! 🌐💡
